# IRRIGATION IN ARIZONA.

Arizona contains nearly 114,000 square miles and about 72,000,000 acres of land. About 18,000,000 acres are used for stockraising and support nearly 1,000,000 cattle, more than 1,000,000 sheep, besides horses, mules and other domestic animals. Nutritious grasses grow everywhere, and could the balance of the land be utilized this would become the greatest stockraising country in the United States. The want of water is the only drawback to its occupation and development. For the most part these lands lie so that water reservoirs could be constructed to preserve the water from the Summer rains and the Winter snows for the use of cattle and other stock. All farming in Arizona, except in a few mountain valleys, to be successful must be attended by irrigation. Governor Zuleik refers for illustration to Mesa City and surroundings. He says:

In January, 1878, a party of four, as an exploring party for a colony, located a water right on Salt river, in Maricopa county, and entered the present town site of Mesa City, consisting of 640 acres. February they were joined by their families and others, thirteen families in all, and went into camp. February 18th they began active operations, excavating their ditch to irrigate their land, which was completed and the water introduced upon their town site and farm land after nine months of hard labor.

The canal is owned by a stock company consisting of 200 shares with a par value of \$100 per share, which now have a cash value of \$500 per share. The main canal is ten miles long, with a capacity sufficient to reclaim 15,000 acres of desert land. Several miles of the canal traverse the bed of an old Aztec ditch that had been cut through a layer of cement not less than thirty feet wide at the top and twenty feet at the bottom. It is estimated that a saving of \$25,000 was made by following the alignment of this old canal.

The first water was turned upon the land where the town of Mesa now stands in 1878, and not until the Winter of 1879-80 was much seeding or planting done, for they had homes to build, land to clear, and other preparatory work to do.

The transformation after six years has been complete. It is regarded as a colony no longer. Mesa now has a population of 700. The original town site is dotted over with beautiful homes. Altogether there are 7,000 acres under a high state of cultivation, devoted to the raising of cereals, alfalfa (French Lucerne), with extensive orchards and vineyards supplying and enriching population of 1,300 people. Several crops of cotton have been raised here. Grapes are made into wine and raisins, not excelled by those of California.

Mesa has churches, schools and stores, and is not only a self-sustaining community but raises a large surplus for market. It is the one spot where can be seen the ideal realized, and this is the only one instance of many in the Salt River and Gila Valleys of Arizona.

On the subject of irrigation Governor Zuleik says:

To the above facts I invite the attention of the Department, in order to demonstrate the importance of irrigation to the future development of this Territory, and to urge upon Congress the necessity for a liberal appropriation for a hydrographic survey, with a view of obtaining water by storage reservoirs in the mountain sheds, and to test the utility of artesian wells for that purpose in the valleys.

Under the present conditions, of the 72,000,000 acres of land in Arizona there is available to the stockraiser not more than 20,000,000 of acres. The extended valley of desert land stretching from Yuma to the mountain ranges of Pinal and Pima counties, 200 miles in length and more than 125 miles in width, containing about 15,000,000 acres of land, could, with irrigation, be made as productive as any portion of Southern California. Forty acres of this land in a vineyard, orange, nut or olive orchard would yield a small fortune every year to the fortunate owner. That a great part, if not all, of it could be reclaimed by artesian wells I think admits of no reasonable doubt.

Could capitalists secure this vast domain by reclaiming it I have little doubt but a corporation would be formed to do so; but in that event, if success attended their undertaking, the land would pass under control of a syndicate of millionaires, who would reap the advantages that should accrue to the honest settler and worthy homesteader.

Governor Zuleik thinks that Congress should, by a scientific survey and practical test, demonstrate the feasibility of artesian wells for giving the needed supply of water, and if the experiment

proved successful, it could advance the price of these lands and limit the amount which should be entered under the homestead law to forty acres, and by entry to eighty acres to each individual purchaser. This law should be made applicable to all vineyards and citrus fruit lands.

Ditches and canals are being now constructed in all parts of the Territory; more and more land is being cleared every year and placed under cultivation. In two years more it is quite likely that all the land which can now be irrigated will be owned and occupied.

## MACKAY FOR SENATOR.

The Carson Union says: The Virginia Chronicle believes that John W. Mackay should, under existing circumstances, be elected to the United States Senate as the successor of James G. Fair, and that the people of this State will gladly name upon him as the candidate with which to beat the Central Pacific Railroad candidate, W. M. Stewart. The reasons given are many of them excellent, and the suggestion may be found the most practical of any yet made. It so a little time will prove it. Mr. Mackay's own consent is doubtless the principal difficulty in the way of such a consummation.

Meanwhile we cannot but feel that in this portion of Nevada General C. C. Powning is deserving of something better than to be thrust to one side. The real feeling among the people is one of kindness toward the man whom the enemy has singled out above all others as the object of its vengeance. If Mr. Powning has evinced the energy, tact and ability to draw the fire of the Railroad artillery all along the line, he is certainly the man who should not be incontinently deserted by self-respecting people of this State. Circumstances make of him at present the central figure about whose standard the fight rages with its greatest intensity, and the rally should be to uphold and encourage him. He is the man whose attitude is doing more to demoralize the railroad henchmen and Stewart than any other in Nevada, and while he is doing such excellent work it is not the best policy to talk about giving the honors to such as are doing nothing whatever to ensure a victory.

It cannot be decently retorted, even now, by Mr. Powning's bitterest foes that his youth or cheek or want of experience are in the way of his availability as a Senatorial candidate. They have themselves dignified him as being the real author of their tribulations in Western Nevada. As such a political factor the people ought to stand by him to every extent consistent with their own supreme interests. This is to be demanded for the reason that General Powning's candidacy is as unselfish as it is honorable. No man is more true than he to the principle upon which this fight for the rescue of our State from its ignominy is being waged. He is not personally obtrusive to the extent of endangering in the slightest degree the harmony which thus far characterizes a State-wide resistance to railroad domination in the affairs of our Commonwealth. We believe in standing by those who are in good faith carrying on this fight against the miserable disgrace which is to be perpetrated upon Nevada through the election of Stewart to the Senate. General Powning in Western Nevada and Hon. Thomas Wren in Eastern Nevada, are legitimately the standard bearers of the people. As such let them be heartily supported by every honorable means. We want the victory, when it comes, to be as much as possible, a victory of the people and for Nevada men in the truest sense.

The feeling of resentment against Stewart's candidacy increases rapidly, (instead of diminishing) every hour since the election. Party alignments and prejudice dissolve in the presence of its heat and we believe in keeping up the fire with Nevada fuel.

The attitude of the Virginia Chronicle and of the Democratic party generally is a noble one, and too much credit cannot be given to their unselfish and patriotic aid in electing a Republican to the Senate instead of being a contemptible and criminal betrayer of its every interest into the hands of the Central Pacific Railroad Company. But the fight will be only the stronger and the victory the more decisive by sticking to our home men.

The Chronicle talks of a "sugar-coated pill." Never heard of such a pill before.—Carson Appeal.

The idea of the Appeal editor not knowing what a sugar-coated pill is, when it is the only medicine he ever takes. Should he keep up his present attitude in defense of the impudent aspirations of the carpet-bag candidate for the Senate, he might possibly receive the additional reward of an Alaska fur-coated pill.—Va. Chronicle.

Stewart's Appeal man is trying very hard to scare somebody and everybody this morning. Let him start up that "oar" at once. He will find that all the bulls on the Holstein ranch will not be able to get very far with it. The ringsters seem to be more unhappy now than they did before the election. Is anything the matter with them?—Carson Union.

## THE NEVADA SENATORSHIP.

It is like reading a home paper to peruse the writings of Major John H. Dennis in the Salt Lake Democrat. He is familiar with Nevada politics and treats the subject understandingly. Upon the above subject he talks as follows:

"It is not true that it was understood in Nevada if a Republican Legislature was elected that it would be a Stewart Legislature. On the contrary there was not a single Republican member of the Legislature elected in the State who before the election declared himself in favor of Mr. Stewart for United States Senator. He was not endorsed by a single Republican County Convention in the State. On the other hand he was virtually repudiated by a number by the adoption of the 'Home Rule' resolution. No one, not a fool or a knave, will assert that without the lavish expenditure of money he could have polled one thousand votes in the State for the position for which he is a candidate. It is false that his friends claim that the money used in the election was his own. They are not such fools as to make so ridiculous an assertion. It is as well known in Nevada that Mr. Stewart is the candidate of the Central Pacific Railroad Company, as it is in Utah that Caine is the candidate of the Mormon Church. There was no attempt to deny that fact, or that the election expenses were defrayed mainly by the Central Pacific, and other railroad companies, although it is generally conceded that John W. Mackay was also a contributor to the fund, which was variously estimated at from \$150,000 to \$250,000. Now so far as politics are concerned, the Democrat does not care a fig who is elected United States Senator in Nevada. The election of a Democrat is impossible, and politically or personally, as among the Republican candidates we have no choice. Mr. Stewart is unquestionably the ablest man among them, and but for one consideration, this paper would take no interest in the matter. That the railroad companies supported him is nothing to us. This is the affair of the people of Nevada who are most directly interested. They have elected non-residents to the Senate often enough to indicate that they rather prefer them to resident citizens. The Democrat has but one objection to Mr. Stewart, and that is an entirely local one. Senator Stanford's attitude upon the Mormon question is well known. It is probably based upon the business connection of the Central Pacific Railroad with this Territory. Mr. Stanford is President of the company to which Mr. Stewart will owe his election, if he is elected. This would inure to the Mormon supporters in the Senate another voice and vote, for it is as certain that Mr. Stewart would follow his chief upon this question as it is that John T. Caine would follow the direction of John Taylor in casting his vote, if he had one, in the Lower House. If Mr. Stewart was a Democrat he would be equally objectionable to us upon this ground, and we would consider ourselves dastardly traitors to the loyal people of Utah if we advocated the election of any member of our party to the United States Senate, as certain to oppose the Gentile cause as Mr. Stanford's Nevada candidate. Thank heaven the Democrat is not in such a position as renders it likely to be forced or tempted into the commission of such an unrighteous act."

## UNITED STATES SENATOR.

The Austin Reveille thinks Eastern Nevada entitled to the Senatorship. It says:

The Nevada journals are having a tempest in a tea-pot over the Senatorial question. When the Legislature meets in Carson the man who shall represent Nevada in the halls of Congress shall be elected. And there is no doubt but that the people of the State have awakened from their apathy and demand of the Assemblymen discretion in their choice.

They will have no difficulty from the scarcity of candidates as before the Legislature meets there will be one from every county and perhaps more. The eastern part of the State should take part in the struggle and combine upon one candidate and urge his canvass. Washoe and Ormsby counties have for many years been trying to dictate to the rest of the State, and lead it blindly, and it is about time for a new era to begin in the management of our politics. There is strength in unity, and should the Assemblymen of the eastern counties combine, there is no time more favorable than the present for success. In the west they are divided into factions, each supporting their favorite and sufficiently desperate to catch at any straw that will defeat their opponent. It is no more than justice, we are entitled to it.

The Belmont Courier says:

Ernst & Esser's team pulled out for Austin on Sunday with eleven tons of ore from Spanish Belt. This ore goes to Reno to be worked in the new reduction works of that place. It is said that very satisfactory rates are offered.

The Knights of Labor propose to start a co-operative packing association in Chicago with \$50,000 capital.

PRICE OF DAILY JOURNAL.  
12 1/2 CENTS PER WEEK.

THURSDAY.....NOVEMBER 25, 1886.

## TOWN AND COUNTY.

No PAPER.—This being Thanksgiving Day no JOURNAL will be issued from this office to-morrow morning.

The Postoffice will close to-day at 10:30 o'clock.

There are fifteen patients in the county hospital.

Howell, Carey & Co. paid out \$10,000 last week for ore.

The west-bound overland was four hours late last night.

The First National Bank of Reno will not be opened to-day.

The University and public schools have closed until Monday.

Dan O'Keefe was acquitted, the jury only being out ten minutes.

For a woolen mill there is no place on the Corst that equals Reno's advantages.

Charley Bender and J. F. Carter will be out from New York in a couple of weeks.

The barber shops will close at 1 p. m. to-day and remain closed until Friday morning.

Tracklayers are wanted on the Mohawk Valley railroad. Apply at the Reno office.

The Catholic Fair still attracts large crowds. The grand Thanksgiving ball takes place this evening.

G. W. Mapes is now the owner of the Lindley building. He is getting a number of the good things of the town.

Holsworth is building a two story carpenter shop on the rear of his Virginia street lot. The building fronts on First street.

C. M. Fassett, of Ruby Hill, is spoken of for Chief Clerk of the Assembly. He is a splendid reader, and would make a splendid Clerk.

Mrs. Alb will hold her weekly dance at Armory Hall Monday evening, and her dancing school on the following Saturday afternoon.

Humboldt county's delinquent tax list only amounts to about \$300. Eureka's is in the neighborhood of \$1,100. These close collections indicate fair times.

Thanksgiving Union services will be held at the Baptist Church to-day at 11 a. m. Sermon by Rev. Mr. Bradshaw, pastor of the M. E. Church. The choir of the Methodist, Congregational and Baptist Churches will furnish music for the occasion.

B. F. Bobo writes the JOURNAL that he arrived at Tulare on the 14th, after a pleasant ride of eleven days across the mountains. He writes that Tulare is a growing town, and there is not a vacant house in the town. One hundred new buildings have been put up this year, and brick masons and carpenters are in great demand now.

The Comstock.—The Virginia Chronicle says: The recent ore development on the Comstock has resulted in the resumption of operations in the following mines that had been shut down since 1882: Bullion, North Gould & Curry, Eschewer and Alpha. The Audes, Scorpion, Wallis Fargo, Keystone, Imperial, Caledonia, Confidence, New York Prospect, Julia, Europe and others that have been abandoned with the exception of keeping up the annual holding work since 1880 will be in operation by January 1887. This will increase the force of miners employed in Storey county to 3,000. A number of mines in Flowery district will also be in operation before the opening of Spring.

Secure Seats for the Concert.—The box sheet for reserved seats for the vocal and instrumental concert to be given at the Nevada Theater on Monday evening is open at Thurston's. The concert will be given by the Cheney-Tolmie corps of finished vocalists and instrumental performers, and promises to prove a rare musical entertainment. For preliminaries see programme in the Journal's advertising columns.

FRANK LESLIE'S POPULAR MAGAZINE FOR DECEMBER.—In these days, when outdoor sports are so generally cultivated, many will read the article, "Why We Canoe," by W. P. Stephens, in the December number of Frank Leslie's Popular Monthly, and some at least will be tempted to try an amusement so exhilarating and attractive. "Persian and Turkish Tobacco" have their votaries too, who will indorse Mr. Oscanyan's praises. The sketch of the Centennial Chemist Chevreul, on whom our Harvard has just conferred the degree of Doctor of Laws, will be read with interest. The article on the American Sparrow hawk is full of interest now, as showing how easily it could be tamed and used instead of a scarecrow to keep off grain-devouring birds. A venturesome young lady, Miss Taylor, tells of what she beheld at one of the "Great Thirsty Dances" among the Indians, till its horrors overpowered her. W. E. McCann goes into the byways of life and tells of "Eccentric Recusals" in a charming way. "The Treatment of Criminals," with a careful account of the Elmira Reformatory, is an article to be read and studied carefully. "A Winter in Jamaica," is a sketch of West India travel, very prettily told, and like the other articles in the number, well and attractively illustrated. Arthur Dudley Vinton tells the story of "North American Earthquakes." "The Fisher-girl of Grand Menan," "Two Inspirations," "Shadow or Substance?" and other stories in this magazine, justify its title of the "Popular Monthly."

General U. O. Powning has secured Pipers Opera House at Virginia City for the evening of December 6th and will at that time address the people of the Comstock on the Senatorial question and Republican politics generally. During that same week he will also be in Carson and address our people upon the same question. We are glad that Mr. Powning proposes to respond in fitting terms to the abuse showered upon him as a citizen of Nevada. The Senatorial campaign is destined to be a warm one.—Carson Union.

The above is a mistake, at least so far as date is concerned. Should it be pleasing to the Comstockers, Mr. Powning might make a few remarks somewhere about the 20th.

A CARD OF THANKS.—EDITOR JOURNAL: Permit me, through your columns to present the sincere thanks of myself and wife to the numerous friends who made our wedding anniversary so very pleasant by their presence and generous gifts. In addition to the purse mentioned by the correspondent of the Gazette there were many valuable presents, some of them from persons who were themselves unable to attend. May the blessings of heaven accompany one and all.  
T. B. BRADSHAW,  
Pastor M. E. Church.

RENO, NOV. 24, 1886.

REGISTERED VOTE OF RENO.—In 1874 the registered vote of Reno was 630; in 1876, 986; in 1878, 914; in 1880, 1,039; in 1882, 924; in 1884, 908; in 1886, 989, of which the First Ward had 175, Second 447, Third 367. The books of 1868, 1870 and 1872 were destroyed by fire, and the JOURNAL can not give the vote for those years.

NOT FOR STEWART.—The White Pine News says:

The Stewart organs in the western part of the State are counting on White Pine's two Assemblymen. You are clear off, gentlemen. They are for Tom Wren.

Cassidy is temporarily occupying the editorial tripod of the Eureka (Nev.) Sentinel, of which he is half owner. Although downed in the campaign for United States Senator, he is having lots of fun in the supplemental proceedings. He originated a shibboleth in the Democratic State Convention, "Home Rule for Nevada," which will eventually carry him into the Senate. As it was and is, he has aroused an opposition to Mr. Stewart, the Republican California candidate, little anticipated by the moneyed backers of that gentleman. The chances are that the sack will have to be brought again into requisition in the Legislature to reconcile the consciences of a number of the Republican party who were elected by the Stewart corporation fund. The Democratic members are disposed to join with the "Home Rule" Republicans in the election of a bona fide Republican resident of the State. Although its dollars to doughnuts that the sack takes the pool, George is making it very expensive for the putters-up who imagined that their troubles were ended with the election of a Republican Legislature.—Salt Lake Democrat.

AN OPEN LETTER TO THE PUBLIC.—The Palace Bakery folks do make their candy, and do not import cheap adulterated goods. We commenced candy making 18 months ago, and said then as now, that we don't give up what we once undertake to do. Our candy trade has increased 25 per cent. since, for which we feel thankful to the public. We do not only make candy once a week, but every day in the week, and we will be pleased to show our shop to any one. Our place shall be known after this as the Nevada Cracker and Candy Factory. We sell candy wholesale and retail. Leave your money in Reno, don't send it elsewhere. Respectfully,  
O. HARTUNG.

FOR SALE.—Mrs. M. J. McGrath desires to sell her ranch near Mill Station, lower end of Washoe Valley. Also all household goods, seventy-five stands of bees, three milch cows, wagons, etc. Everything will be sold at a very reasonable rate.

ADVICE TO MOTHERS.  
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-1874-1v.

PARKER'S MAP OF NEVADA.

PARKER'S NEW MAP OF NEVADA.

THIS NEW AND BEAUTIFUL

MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler, he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.
